

Work From Home (WFH) Policy

Effective Date: January 1, 2024 | Version: 1.0 | HR Department

DISCLAIMER: This is a sample/demo HR policy document for testing purposes only. Not a real company policy.

1. Purpose

This Work From Home (WFH) Policy defines the eligibility criteria, approval process, and expectations for employees working remotely. The policy aims to balance business operational requirements with employee flexibility and well-being.

2. Eligibility

Employees are eligible for WFH arrangements if they meet all of the following criteria:

- Have completed at least 6 months of continuous employment with ACME Corporation.
- Hold a role that can be performed remotely without impacting customer service or team operations.
- Have a demonstrated track record of meeting performance targets and deadlines.
- Have a suitable home working environment with reliable internet (minimum 10 Mbps) and a private workspace.

Roles that require physical presence (e.g., reception, facilities, on-site IT support) are excluded from WFH eligibility.

3. WFH Entitlement

Eligible employees may work from home for a maximum of 2 days per week. The default WFH days are Wednesday and Friday, unless otherwise approved by the department head.

- Employees may not carry forward unused WFH days to the following week.
- WFH days during public holidays or annual leave periods are not replaced.
- During probationary periods (first 6 months), employees are not eligible for WFH arrangements.

4. Approval Process

- Employees must request WFH days at least 24 hours in advance through the HR portal.
- The direct manager must approve or reject the request within the same business day.
- Managers may revoke approved WFH days with a minimum of 4 hours notice in cases of operational urgency.

WFH arrangements can be suspended for the entire team during critical business periods such as quarter-end reporting, audits, or major product launches.

5. Expectations During WFH

Employees working from home are expected to be available and responsive during standard working hours (9:00 AM to 6:00 PM), attend all scheduled meetings via video call with camera on unless technically infeasible, log into the company VPN and required systems by 9:15 AM, and mark attendance in the HR portal by 9:30 AM.

Maintain the same level of productivity and output as in the office.

Ensure confidentiality of company data in the home environment.

6. Equipment and Security

ACME Corporation will provide employees with a company-issued laptop for WFH use. Employees must not use personal devices to access company data or systems.

All data must be stored on company-approved cloud platforms or VPN-connected drives.

Employees are responsible for the physical security of company equipment at home.

Loss or damage to company equipment must be reported to IT within 24 hours.

7. Health and Safety

Employees are responsible for ensuring their home workspace meets basic health and safety standards, including adequate seating, proper lighting, and a distraction-free environment.

8. Review and Withdrawal

WFH eligibility may be withdrawn if an employee's performance declines, attendance requirements are not met, or if business needs require full-time on-site presence. A minimum of 5 working days notice will be provided before withdrawal.
